## 2. ABOUT COOKIES IN GENERAL

Cookies are details of information, i.e. short text files, that are placed on your computer's browser by the websites you visit. Cookies are widely used to operate websites efficiently or to provide web services and features. Cookies are specific products of the server that creates them, to which other servers do not have access. This means that they cannot be used to track where you have been on the internet. Although they identify the user's computer, they do not identify the user personally and cookies do not store passwords or bank or credit card information.

Cookies can be "persistent" or "temporary" cookies. A persistent cookie is stored by the browser for a fixed period of time, provided that it is not deleted by the computer user before that time. The temporary cookie is automatically deleted when you close your browser. It is stored on the user's computer. Most browser software automatically accepts cookies, but you can change your browser settings to prevent this if you prefer. By using this website, you consent to the use of cookies on this website. If you do not wish to accept this, you can disable the use of cookies in your browser settings.

Please read the information on how to disable/block cookies. However, please note that if you disable cookies, you may not be able to use certain parts of the Website, as some of the cookies are necessary for the smooth functioning of the services provided on the Website.

### 3. COOKIES USED ON OUR WEBSITE
